(Furnished by the Frank Witherspoon Live Stock Commission Company, Oklahoma City.)

Oklahoma City, Mar. 28.—Since Tuesday last the cattle market here has been on an upward trend, and today prices were steady with yesterday's stronger market. The opening of last week saw a break of fifteen cents, and this has been entirely regained, and some claim prices are now as much stronger on killing and butcher cattle. Bulk of the receipts here have been medium and heavy beefs, which sold up to \$6.00, and the good heavy kinds \$5.85 to \$5.95, the latter price being paid today for some well finished 1,400 lb. steers in the quarantine. It has been the butcher supplies that have been woefully light, and prices are ten to twenty cents higher than a week ago. Good fat heifers are selling up to \$5.50, while cows sell \$4.50 to \$5.00. Bulls are selling steady, with the best kinds bringing \$4.60 to \$5.00. Today a couple of loads sold \$4.25 to \$4.50, and they were of a fairly good finish. Calves are steady

A Great Newspaper and Pedigreed Seed Corn Proposition.

The Kansas City Weekly Journal is making a great offer to farmers in the way of two splendid publications and a pound of pedigree white seed corn. Any farmer sending fifty cents will receive The Kansas City Weekly Journal one full year and will also receive The Missouri and Kansas Farmer a full year. The Kansas City Weekly Journal is a splendid newspaper that furnishes a full and complete telegraphic report in condensed form, a large volume of miscellaneous news and a splendid market report. It keeps the farmers thoroughly posted on all the world's doings. The Missouri and Kansas Farmer is an old established semi-monthly farm paper that runs about 20 to 32 pages each issue. It is filled with first-class matter of interest to the farm. In addition to these splendid papers for one year, the subscriber will receive one pound of pure pedigree white seed corn. This corn was raised in Clay county, Mo., and is known as the Clay County White; it is a 95-day corn and is a wonderful producer, last year having produced 90 bushels per acre. It has taken several years to bring it to its present high standard. It now stands at the head of the list for quality and productivity. Pure white ears, large weighing over one pound each, cob small and grain very deep and compact, filling cob completely over tip; many ears contain over 1,400 grains each. Farmers will find it to their interest to secure this seed corn, as it is furnished to them absolutely free with these two complete papers one year at 50 cents.

SCOLDING FOR SUMMER GIRLS

Irate Vicar in England Denounces Their Costumes as Mussed and Immodest, and Blames Motor Cars.

"For some weeks past we have enjoyed the presence of summer visitors. But who deviates their clothing?" Thus writes the vicar of Carisbrook, Isle of Wight, in his parish magazine, says a recent London dispatch to the New York Tribune. He continues: "We can remember a time when the English girl was a most attractive creature. Look at Leech's pictures in the old numbers of Punch—pretty, tasteful and bright, they were a pleasure to look at."

"But the 1910 female seems either to be wrapped up in a bundle of rags, with the least clean one spread over her hat and tied under her chin, or else she discards as much of her clothing as she can—leaves her hat at home and gets her head full of dust; exposes her chest to every wind that blows, displays ankles that show the solidity of her understanding, runs about the island half-clad, crumpled and dust-laden. Is it to convey the impression that they have all traveled in motors?"

"But the motorist deserves a line to himself. He represents the last arrogance of wealth. He comes hooting, squeaking, bellowing, tinkling, roaring or whistling with a piercing scream, to tell everybody to get out of the way."

WAS NOT A BEAUTY LECTURE

Timid Little Woman Found Herself Seeking Dress Hints at Federation of Club Women.

"The conservation of the natural resources of this country is one of the paramount issues before the American people today and—"

The speaker adjusted her nose glasses, raised her eyes confidently from her manuscript to meet the expressions of approval from the thirty or more clubwomen of Iowa, says the Des Moines Register and Leader. It was a stupendous statement and well worth readjustment of one's pose for the dramatic effect. The speaker, who stopped now and then to look up from the script, was neatly but severely tailored, her hair was brushed carefully and not unbecomingly from her high brow. There was not a curl nor a ripple of a marcel wave. Higher education was writ large.

A little woman on the back seat in common clothes, seamed face and hard hands fidgeted and looked startled at such an intellectual outburst.

"Excuse me, mum," she ventured timidly, as she nudged her neighbor, "is this Mme. X's beauty lecture?"

"It is not," was the grim rejoinder. "It is the annual meeting of the official board and chairmen of standing committees of the Iowa Federation of Club Women."

"Mercy!" ejaculated the woman out of place. Then she "secooted."

Novels by Weight.

Bernard Shaw's latest contribution to the world's fund of wisdom is the suggestion that fiction be sold, or bought by weight. This certainly is Mr. Shaw's profoundest utterance. It marks the acme of his greatness as a sage. By all means buy it by weight, then there can be very little ground for complaint at the high price of novels. Moreover, it will be in direct line with this popular movement to buy groceries by weight, as a means of solving the high-cost-of-living problem and getting one's money's worth.

Perhaps, also, this Shaw system will have the desired effect of limiting the output, of bringing the supply somewhere near the demand. The present method of buying it by the yard seems utterly to have failed in this achievement. That means of measurement has not even proved wholly successful with reference to Dr. Elliot's five-foot book shelf, which, of course, no one but Shaw ever would have thought of buying by the pound.

W' n One Has Fever.

In cases of excessive thirst that arise from feverish conditions the juice of half a lime poured over cracked ice or mixed with charged waters will give relief if slowly sipped a little at a time.

It is often found that very hot water taken by the teaspoonful will satisfy thirst more quickly than any other drink. The effect is heightened if a few drops of orange, lemon or lime juice is added, or a half teaspoonful of baking soda.

The main thing in thirst quenching is not to gulp down great quantities of liquid, to take nothing too sweet, or too rich and to avoid ice water, which, contrary to usual belief, increases rather than decreases thirst, and against which all doctors fight.

He Bore It Grinning.

Captain Kendall, the capturer of Crippen, was talking in the smoking room of the Montrose about the horrors of seasickness.

"Some men bear it well, though," he said. "I took a Liverpoolian to Canada last month and the poor fellow did have a time! Sick from the first day to the last!"

"But he bore it well, and when we reached Father Point he said to me: 'Captain, I think I'll go straight back with you.'"

"Why," said I, "I thought you were going to make an extensive tour?"

"No, I think I'll go back now," he said, gulping as a nasty swell lifted our bow. "I see by your rate card that you carry 'returned empties' at half fare."
